

### **HYGIENE RULES FOR US AND FOR OUR GUESTS DURING YOUR STAY**

Please inform yourself on the [DEHOGA Baden Württemberg](#) website about the current provisions for the hotel and catering industry, which are valid before your arrival and during your stay with us. You can find out the current 7-day incidence value in the Ravensburg district [here](#).

All of our employees are familiar with the prescribed hygiene rules for Covid19. We ask vacationers and business travelers to wear mouth and nose protection upon arrival.

To protect our guests and our employees, we would like to point out that mouth and nose protection must be worn in all public areas of the hotel, i.e. in the entrance area, at the reception, in the breakfast room, in the hallways, in the stairwell and in the elevator, as well as a distance of 1.5 m must be adhered to.

Please bring your mouth and nose protection with you from home. At the moment we are happy to serve you breakfast on our terrace if the weather is good. Our tables in the breakfast room and on the terrace have the prescribed spacing.

You can remove the mouth and nose protection at the table and of course in your room and balcony.

Your room may only be cleaned when you are not in the room. Please hang your room sign outside so that housekeeping knows that you are not there.

Our wellness area has been modernized and expanded - for more information see news. You will then receive the hygiene requirements in the hotel from Mr. Wieser.

We are not allowed to accommodate people who have had contact with people with Corona symptoms in the last 14 days or who have symptoms themselves.

We do not offer half board at the moment.
